

IPPD

N-isopropyl-N'-phenyl-p-phenylenediamine

IPPD is used mainly in the manufacture of solid tires, belts, hoses, cables, automotive mounts and other mechanical goods, requiring protection from ozonation. It provides powerful antiozonant and antioxidant properties to rubber compounds particularly in high temperature and flex fatigue applications. Recommended for use with NR, SBR and BR.

Specifications:

Appearance	Dark Purple Pellets
*Melting Point. °C	70 min.
*Moisture. %	0.5 max.
*Ash, %	0.3 max.
Assay, %	94 min.
Specific Gravity	1.10

*Actual data will be reported on Certificate of Analysis

03/2014
